

MDRGC BR50 Match 6 22-Aug-15 (by Mark Dumont as told to Jim Latham)

(ed..note) Since I was unable to attend Mark Dumont kindly provided me with the data and write up for the match. To start we have some sad news. Last week we lost one of our shooters, Peter Perchison (AKA Pepsi Pete) . On the good news side we had a solid turnout of 16 shooters including newcomer Shan Welsh. We understand that his wife intends to join us next match and we welcome them both..Conditions were fairly mild for the first relay, although the wind was fluctuating over a bit of a range. Things started to get more interesting as the temperature warmed up for the second relay, with significant condition changes happening in their usual random fashion.

Once again, Nev Beddome conquered all in the sporter class... His score actually gave him second place in the overall ranking! (ed. Note: We are starting to think that Nev is now using the same Steroids Bob, Gord, and I have been accused of taking!!) Gord Park also shot a 2300 target, a formidable accomplishment. But, as usual, Bob's consistent performance won the day.

Mark noted that his own performance suggest5ed the need to get out and test that new ammo! (I think we all need to practice a tad more!)

And, for the geeks, numbers at 10 AM (between first and second relay...)

Temperature 17.8 degrees C

Dew point 13.0 degrees C (RH 73.1%)

Pressure 102.0 KPa

Assume elevation is 850 ft

=> Density Altitude is 1346 feet
