

## MDRGC Center Fire VFS Match: October 4, 2015 (by Jim Latham)

Again I could not make it but my co conspirator Joe Mendham assured me that everyone pitched in as usual to ensure we had a good match. Joe said it would not have mattered much what the conditions were since it had been so long since we had shot while the club was engaged in the Hunter Sight In program the revenue from which is substantial. Then to have the best conditions anyone could remember made for a superb meet. An occasional glance at the wind flags showed none of them even wiggling all the way to 200 meters. That is exceptional for Mission. 11 Shooters came including newcomer Ritchey Elliot, whom we welcome.

The spectacular conditions produced some of the best scores ever. Art Harder had two 100 meter targets that were perfect 55's and Mark Dumont had one. It was nice to see several folks also shoot some personal best scores. There were a number of ties which had to be decided by looking at other targets. The 421 aggregate scores shot by both Art Harder and Mark Dumont are the highest recorded so far when shooting the 40 score rounds of our regular monthly matches. Art was shooting his Coyote in 6 ppc and Mark was shooting his BAT in 30 ARX. Ray's alarm clock caused him to miss the first two targets or he would have challenged John for first overall in the factory class. As happened to all of us when we came out the first time Ritchie took time to adjust to our format, but he had a good time.

**Everyone is reminded that next month's match is entitled "Do you Want to Try Center Fire Benchrest Shooting" on Sunday November 1. After our regular match which begins at the usual 9:00 AM we are going to provide an opportunity for anyone who wants to try shooting these benchrest rifles. We encourage those of you interested to get there by 10:00 and watch what we are doing and by 11:00 or so we can provide you with a chance to fire a 5 shot group and a 5 shot Varmint for Score (VFS) target. And please connect with me at [lathamconsult@telus.net](mailto:lathamconsult@telus.net)**
